

Environmental Policy

Genis Steel is committed to undertaking its business in a manner that recognises the importance of environmental protection and sustainability. To achieve this objective Genis Steel strives to achieve the following:

- Conduct all operations in accordance with legislation, government policies and planning approvals.
- Responsibly minimise adverse environmental affects by operating at an efficient level of performance.
- Develop and implement an Environment Management System in accordance with ISO14001:2015.
- Provide information to and consider input from the community on significant environmental matters.
- Periodically review existing operations and identify opportunities to reduce adverse effects on the environment.
- Actively encourage employees and contractors to develop a sense of responsibility for the protection of the environment.
- Commit to purchasing from Suppliers who are aware of their environmental responsibilities.
