

## ***Quality Policy***

Genis Steel's scope of works, including Industrial, Commercial and Residential fabrication and installation of structural steel. We aim to develop and maintain an efficient service that satisfies the needs of its clients in a timely and cost-effective manner, that does not compromise on the quality of our products and services.

This requires understanding the responsibilities by our employees and contractors regarding what our quality policies are.

Genis Steel's management is responsible for establishing, implementing, integrating and maintaining the quality management system, ensuring resources are available for its effectiveness in accordance with the standard ISO9001:2015.

We also review the suitability of our quality system to ensure it reflects our current operations and where necessary we implement changes and improvements to ensure its effectiveness.

Through direction and support each employee will understand the importance of quality and their responsibility to contribute to the effectiveness of the management system.

A handwritten signature in blue ink, appearing to be "Tohme Hayek", is positioned above the name and title.
